WHICH YOU WERE CJA APPOINTED** \_\_\_\_\_

**CASE NUMBER** \_\_\_\_\_

ISYS Personal is a search and retrieval program. Designed for individual users, it allows users to quickly and effectively search electronic computer files.

Note: ISYS Personal is built to work in a Windows OS environment. If you use a Macintosh, you must have a "virtual Windows" program to properly install and run ISYS (virtual Windows programs run a copy of MS Windows on a Macintosh). Two common virtual Windows programs are VMWare ([www.vmware.com](http://www.vmware.com)) and Parallels ([www.Parallels.com](http://www.Parallels.com)).

For technical support, you can contact [support-us@isys-search.com](mailto:support-us@isys-search.com).

When you are finished filling out this form press the "submit" button below. This will attach your completed form to an email message that will be sent to Kelly Scribner ([kelly\\_scribner@fd.org](mailto:kelly_scribner@fd.org)). You will then receive an email with download instructions and the activation code necessary to obtain your free copy of the ISYS Search Software. Please allow up to 5 business days to process your request.
